IS THE CITY ELECTION LEGAL?

Alleged That Nearly 75 Votes Were Cast
Contrary to Law.—Many Polls
Paid After Prescribed Time.

About seventy-five poll taxes have been paid by persons residing within the limits of Daytona within the past ten days, and it is presumed that a vote was cast in the recent city election for every one of the late receipts issued by the County Tax Collector.

The law, as laid down by the Constitution of the State of Florida and enacted by the Legislature, reads as follows:

"No person shall be permitted to vote at an election who shall have failed to pay, at least thirty days before the day of such election, his poll taxes for the two years next preceding such election: Provided, that no person shall be prevented from voting on account of not having so paid a poll tax, for any year, which shall not have been lawfully

NEARLY FORTY UNPAID LICENSES

Many Business People of Daytona are Liable
to Punishment for Violation of Law.

Get Busy Quick.

Nearly forty persons residing in this vicinity are guilty of doing business without a license. This number includes hotels, boarding houses, hackmen, merchants, etc. The State and County license tax was due the first day of October and those who have not paid are liable to be jerked to Deland any day by the new county solicitor.

The law provides that the County Judge must report the names of all delinquents to the County Prosecutor and the latter officer may file information against each offender in the Criminal Court. It is said that the collection of license taxes in Daytona gives the officials more trouble than all the balance of the county together.

THE COMFORTS OF DAYTONA.

Judge B. F. Ibach Writes Interesting Letter to an Indiana Paper.—Beauties Have Not Faded.

Judge B. F. Ibach, of this city, in a letter to the Herald, of Huntington, Indiana, thus speaks of the comforts and conveniences of Daytona.

"While my old friend, Thad Butler, was editor of the Herald, I sent a short description of Daytona which he published, and which I thought was sufficient to give an idea of this place. Let me say the beauties of Daytona have not in the least faded. The opportunities to recoup wasted energies and subdue chronic diseases while hammocking in the sunshine, breathing the cooling and invigorating breezes from the Atlantic are as free as nature can make them. The pleasure of associating with cultivated and healthy people and enjoying, if you wish, the sport of golfing, dancing, fishing, riding, hunting, boating, yachting or surf bathing go on each returning year with increasing vigor. The schools are improving, and teachers and preachers are as capable as any you find anywhere. The fact is, the South is forging ahead in every field of human activity and in the achievements of Christianity. This is in a large measure due to the fact that the millionaire, the well-to-do and the bread winner, find Florida a climate which can not be duplicated on this globe, to be reached in a short time and with little cost. In a day's run by train, one may change from a cold, frosty climate of the north to these sunny lands of palms and pines, with singing birds, where the rose and violet are practically ever in bloom, and partake of the delicious fruits for which Florida is famous."

assessable against him by reason of his not having been a resident of the State or not having been of age, and who shall have procured, and shall exhibit the certificate of the supervisor of registration to that effect as hereinafter provided for."

HARRIS TENDERS RESIGNATION.

Wants to Step Down From the City Council.—G. B. Seaman Elected as the New President.

The most surprising feature of Thursday afternoon's meeting of the City Council was the resignation of Edward G. Harris, who has served on the board in a capable manner and who for several terms has filled the position of president with much credit. Mr. Harris insisted that his fellow councilmen act on the resignation immediately, as he wished to be relieved of the duties. Almost every councilman expressed his regrets on leaving Mr. Harris tender his resignation. President Seaman said that he thought Mr. Harris should have resigned at the last meeting, as he was the voters a chance to say who they wanted to fill the unexpired term. Mr. Harris replied to Mr. Seaman, saying that it was within the power of the council to elect someone to fill his place. Alderman Carroll moved that the resignation be laid on the table and the matter be taken up at the next regular meeting.

SEAMAN ELECTED PRESIDENT. Alderman G. B. Seaman, who was elected on Wednesday for a two year term in the City Council, was elected as president of the new council. Both he and Alderman Harris were nominated, but on the second ballot Alderman Seaman won out. He accepted the duties and in a few brief remarks thanked the council for the honor and trust imposed in him.

COPIES OF CITY CHARTER. The question of procuring copies of the city charter was discussed and the clerk was asked to procure a copy and have estimates made on printing 100 copies in pamphlet form. President Seaman said that it was absolutely necessary to have these copies by which to guide the city councilmen and other officers.

FINANCES DISCUSSED. The financial situation of Daytona was discussed and the report of the city treasurer as submitted was closely scrutinized. Alderman Clark moved that the president be authorized to borrow from the bank on the warrant of \$633, held by the city from Volusia county. The motion was carried.

THOSE PRESENT.

Those present at the meeting were President Seaman and Aldermen Clark, Foye, Douglass, Carroll, Harris and Howard.

MEET IN NEW CLUB HOUSE.

Palmetto Club Hold Interesting Meeting in Their Beautiful New Club House on Palmetto Ave.

The regular club meeting yesterday being Philanthropic day and the first meeting in the new club room, was made a formal opening in connection with the entertainment for the day.

The officers of the club were in line near the door to receive the guests. The room was tastefully decorated with some very handsome refreshments, including the flowers, palms, etc. After the "rap" for order, the orchestra gave one of their delightful musical selections "The Eagle's Nest." The president then made a few remarks on the new club room. Mrs. Laurence Thompson, chairman of the Philanthropic department, then took charge of the program and introduced the boys of the Westminster Glee Club, who sang one of their selections and were loudly cheered.

Mrs. Eleanor C. Weaver next read, in her most pleasing manner, a very excellent paper on philanthropic work that showed she had carefully studied the subject.

Three young girls from the Industrial School in Midway sang a trio and their teacher gave a short talk on the work of the school.

The program closed with another musical selection by the orchestra. Ice cream and cake was served and a very pleasant social time was enjoyed by all. It was a very fitting close to the first meeting held in the new club house.

Last Night's Concert.

The Westminster Glee and Concert Company concluded its engagement at the Opera House last evening.

The auditorium was well filled and those who were fortunate enough to hear the concert were thoroughly pleased with it.

From here the company will go down the east coast.

A Poem for Today

THE WAY IS SHORT

By Elizabeth Barrett Browning

THINK we are too ready with complaint
In this fair world of God's. Had we no hope
Indeed beyond the zenith and the slope
Of yon gray blank of sky, we might be faint
To muse upon eternity's constraint
Round our aspirant souls. But since the scope
Must widen early, is it well to droop,
For a few days consumed in loss and taint?
Oh, pusillanimous heart, be comforted—
And, like a cheerful traveler, take the road,
Singing, beside the hedge, what if the bread
Be bitter in thine inn and thou unshod
To meet the flint? At least it may be said,
Because the way is short, I thank Thee, God!

DAYS OF MY YOUTH

By St. George Tucker

ST. GEORGE TUCKER, Revolutionary patriot, jurist, poet, dramatist and orator, was born in Bermuda, W. I., in 1772 to complete his education and remained to fight in the Revolution. He was wounded at the siege of Yorktown. Afterward Dr. Tucker (William and Mary gave him an LL. D. in 1790) had a long and distinguished career as a lawyer and judge. He was the stepfather of John Randolph ("Randolph of Roanoke"), the statesman.

DAYS of my youth,
Ye have glided away;
Fairs of my youth,
Ye are frosted and gray;
Eyes of my youth,
Your keen sight is no more;
Strength of my youth,
Ye are furrowed all o'er;
All your vigor is gone;
Thoughts of my youth,
Your gay visions are flown.
Days of my youth,
I wish not your recall;
Hours of my youth,
I'm content ye should fall;
Eyes of my youth,
You much evil have seen;

Cheeks of my youth,
Bathed in tears have you been;
Thoughts of my youth,
You have led me astray;
Strength of my youth,
Why lament your decay?
Days of my age,
Ye will shortly be past;
Pains of my age,
Yet awhile ye can last;
Joy of my age,
In true wisdom delight;
Eyes of my age,
Be religion your light;
Thoughts of my age,
Dread ye not the cold sod;
Hopes of my age,
Be fixed on your God.

BETROTHED ANEW

By Edmund Clarence Stedman

EDMUND CLARENCE STEDMAN, poet, critic, editor and banker, was born at Hartford, Conn., Oct. 8, 1832, and now resides in New York city. No living American possesses a higher reputation in his chosen field of literary criticism than Mr. Stedman. He has edited, among other works, "A Library of American Literature," "The and "An American Anthology," all of high merit. Mr. Stedman was educated at Yale, entered journalism, became a war correspondent and later a banker. He retired from the last named field of activity in 1900 to devote his whole time to literary work.

THE sunlight fills the trembling air,
And balmy days their guerdons bring;
The earth again is young and fair,
And amorous with musky spring.

The golden nurslings of the May
In splendor strew the pangled green
And hues of tender beauty play
Entangled where the willows lean.

Mark how the rippled currents flow!
What lusters on the meadows lie!
And, hark, the songsters come and go
And trill between the earth and sky.

Who told us that the years had fled
Or borne afar our blissful youth?
Such joys are all about us spread;
We know the whisper was not truth.

The birds that break from grass to grove
Sing every carol that they sung
When first our veins were rich with love
And May her mantle round us flung.

Oh, fresh lit dawn, immortal life!
Oh, earth's betrothal, sweet and true,
With whose delights our souls are rife,
And aye their vernal vows renew!

Then, darling, walk with me this morn,
Let your brown tresses drink its sheen,
These violets, within them worn,
Of floral days shall make you queen.

What though there comes a time of pain
When autumn winds forebode decay?
The days of love are born again;
That fabled time is far away.

And never seemed the land so fair
As now, nor birds such notes to sing,
Since first within your shining hair
I wove the blossoms of the spring.

Starting Tight Screws.
To start a tight screw press the screwdriver firmly in place with one hand, but do not turn it. Then take hold of it sideways with flat jawed pliers as close to the head of the screw as possible and turn it with them. A hand vice is better than pliers. Leave just enough of the tip of the screwdriver outside the vice to fill the slot of the screw, but no more. This reduces the danger of breaking or bending a badly tempered screwdriver to a minimum.—Scientific American.

Laughed First.
"What is the matter, darling?" asked the concerned mother when her small son came to her in a tear.
"Well, you see, mummy, daddy was hanging a picture, and he dropped it, and it fell on his toe."
"But that is nothing to cry about," cried the mother cheerily. "You should have laughed at that, sonny."
"I did, mummy," responded her small son regretfully.—London Globe.

An Example of Daring.
During the hottest fighting in the Shipka pass the leading battalion of the Russian General Dragomiroff's division recoiled before a hailstorm of Turkish bullets. The general was a very stout person and had the appearance of a peaceful German professor. But when he saw his men recoil he dismounted and walked slowly to and fro along a ridge swept by the enemy's bullets. He was a hundred yards in advance of the men, occupying the position they had abandoned. After staying there for awhile without being touched he shouted back to the battalion: "What are you doing, you geese? Did you think there was danger here? I don't find any!" The men responded with a roar of cheers, doubled up to him and charged so fiercely that the Turks were forced to retreat.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues, that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampeleopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions. The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadamized and shell roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues; and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric light for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia.

and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona Beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a lividly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbside, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for sun-bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a perna house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona. At the foot of Ocean Boulevard Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season sport, and it has been an uncommon occurrence to land a thousand pounds of this same fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, six half a mile back of the ocean, is equally famous for the fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

George R. Gonyon, of Jacksonville, was in the city Thursday.

Mrs. L. Chatfield is here from Rockledge on a visit to Mrs. D. Martling.

W. T. Moore, of Jacksonville, is among the business visitors to the city today.

C. E. Winston, Jr., of Jacksonville, was in the city Thursday attending to business affairs.

The property owners on the north side of Fairview Avenue have laid a cement walk almost the entire length of the thoroughfare from Ridgewood to Beach Street. This is a decided and appreciated improvement and will not doubt be followed by other progressive property owners.

H. Percy Brainard, representing Ward G. Foster, spent a couple of days in the city, early this week.

Among the Canadians recently arriving at The Clarendon are Hugh Richardson and Miss Richardson, of Ottawa.

Mr. Mallory has arrived here from Dayton, Ohio, to join his family, who have a cottage on South Palmto Avenue.

A dance will be given at the Armory of the Halifax Rifles this evening, and it is quite probable that the young people will turn out in numbers to attend the function.

Mr. and Mrs. John W. Mariner and their interesting children, hailing from Milwaukee, are at The Clarendon, where they expect to spend the balance of the season.

Information received here states that R. E. Olds, the Reo automobile manufacturer, together with his wife, children and a party of friends, arrived in Miami Wednesday on the houseboat Rochester, after a pleasant cruise along the East Coast. The party are guests of the Royal Palm in the Magic City, where they will remain for several days before going to points in Cuba and the West Indies.
